

## What is Cremation?

Cremation is an aftercare alternative for adored pets. Cremation is the process of reducing matter into chemical compounds by the use of high temperature burning, vaporization and oxidation. Paws Pet Cremation understands the significant place a pet holds in the lives of pet parents and we take pride in ensuring your beloved pet is treated with care and respect throughout the cremation process.

## Why Choose Private Pet Cremation?

The two common cremations are private and communal cremation. In a communal cremation, multiple pets are cremated together and the remains are not guaranteed to solely be that of your pet. In a private cremation, every pet is individually cremated with absolutely no comingling of ashes. At Paws Pet Cremation, we only offer individual pet cremation because as pet owners, we believe it is the single approach in assuring your pet is cremated respectfully and guarantees that the remains you receive are only those of your pet.

## Why Choose Paws Pet Cremation?

Paws Pet Cremation is committed to going above and beyond industry standards when it comes to the final care of your beloved pet. As members of the Pet Loss Professionals Alliance (PLPA), we are dedicated to continuing our education to ensure that the remains of those entrusted to us are cared for with quality care. As certified crematory operators, we are devoted to safe cremation practices. As members of the International Cemetery, Cremation, and Funeral Alliance (ICCF), we employ a staff that is proactive in the field of pet cremation. Paws Pet Cremation is also certified in pet loss and grief companionship because we recognize the need for offering progressive support and guidance.

### Service Package Enhancements

#### Let Your Love Grow

Begin to heal by honoring your pet with a remembrance planting. The founders of Let Your Love Grow created a healthy approach to honor your pet and aid pet parents during their grievance process. The organic planting mixture produces beneficial nutrients to ensure the health of the plant while continuing the circle of life.

#### Burial At Sea

Burial at sea is a unique alternative to memorialize your beloved pet. It is an experience that can be entirely tailored to honor your pet and accommodate any pet parent. Scattering of ashes at sea respectfully provides a serene interment for all beloved pets.

*For information on further memorial enhancements and products, contact us at your convenience. Paws Pet Cremation can assist you to answer any questions on our memorial items and to finalize memorial arrangements.*
